

Tribhuja — Full Site Copy Rewrite

Every copy block on the current Vercel build rewritten to catalogue voice. Red = drop. Green = use. Every rewrite cites the catalogue page it came from — or flags when original writing was required. Paste directly into React components.

Section · Project Highlights / Master Specs

Eyebrow label

BEFORE (current site):

"Project Index · The Master Specs"

AFTER (catalogue-aligned):

"The Rise"

Source: Catalogue p.46 — heading used for the vertical-life / elevator verse section.

Main headline

BEFORE (current site):

"Engineering Excellence."

AFTER (catalogue-aligned):

"Thirty-seven floors at one hundred and twenty metres."

Source: Catalogue p.51 — verbatim.

Sub-heading 1 (Architecture of Arrival)

BEFORE (current site):

"The Architecture of Arrival."

AFTER (catalogue-aligned):

"Three lifts to your door, one of them always waiting."

Source: Catalogue p.47 — verbatim. Captures 'arrival' without the corporate framing.

Body paragraph 1

BEFORE (current site):

"Double-height entrance lobbies in every tower. At Tribhuja, you do not walk into a building; you are received by it. The scale of the entrance is designed to reset the resident's state of mind from the city to the sanctuary."

AFTER (catalogue-aligned):

"The elevator going up, the newspaper under your arm. The elevator going up, the grandchild in your lap. The elevator going up, the groceries by your feet. The elevator going down, the city waiting below."

Source: Catalogue p.46 — verbatim.

Implementation: Keep the original copy block structure, just swap the body text.

NBC compliance card (BANNED WORD)

BEFORE (current site):

"NBC Standards — Compliance with National Building Code luxury norms across all vertical transit."

AFTER (catalogue-aligned):

"NBC compliant. The difference is in the ceiling above you, and the air between."

Source: Catalogue p.51 — second line is verbatim. 'Luxury norms' removed.

Implementation: 'luxury' is a banned word. Must be removed.

Sub-heading 2 (Sky Engineering)

BEFORE (current site):

"Top of The World."

AFTER (catalogue-aligned):

"Top of the world."

Source: Catalogue p.48 — title verbatim (lowercase is catalogue style).

Body paragraph 2

BEFORE (current site):

"A technical sky-bridge connects Towers A and B, creating a 70m high destination in the clouds. Rooftop terraces across all nine towers provide 25,000+ SFT of sky-life including workspaces, pergolas, and city-view screening decks."

AFTER (catalogue-aligned):

"A hundred and twenty metres up, the city falls below the conversation. Between two towers, a walk that is neither one."

Source: Catalogue p.48 + p.49 — both lines verbatim. First = Top of the World. Second = The Sky Bridge.

Stats fix — all cells showing 0

BEFORE (current site):

"0 Qty · 0 Acres · 0 Units · 0 G+37 · 0 SFT · 0 G+5 · 0 % · 0 Secs"

AFTER (catalogue-aligned):

"9 Towers · 9.16 Acres · 1,730 Homes · G+37 Rise · 3,125 Max Area · G+5 Clubhouse · 76% Open · < 60 sec Lift"

Source: Catalogue p.17 (9.16 acres, 76% open), project specs (9 towers, G+37, 3125 SFT), existing landing page (1730 homes).

Implementation: CRITICAL BUG: stats cells render '0' instead of actual values — fix React state / prop binding.

Section · The Living Mosaic (Lifestyle)

Eyebrow label

BEFORE (current site):

"04 · Tribhuja · Lifestyle"

AFTER (catalogue-aligned):

"Club Tribhuja"

Source: Catalogue throughout pp.20–36 — project's own name for the lifestyle chapter.

Main headline (BANNED WORDS)

BEFORE (current site):

"The Living Mosaic."

AFTER (catalogue-aligned):

"Every hour of Tribhuja's life passes through here."

Source: Catalogue p.21 — verbatim.

Body paragraph (BANNED WORDS)

BEFORE (current site):

"Life at Tribhuja is curated, not just planned. 45+ luxuries woven into the architecture, creating a tableau of experiences that change with the light."

AFTER (catalogue-aligned):

"A bride getting ready. A grandfather reading. A ten-year-old's first swim. A Tuesday afternoon with no plans."

Source: Catalogue p.21 — verbatim.

Implementation: 'luxuries' and 'curated' are banned / cliché. This replacement uses the catalogue's own paragraph.

Mosaic tile 01 — Arrival

BEFORE (current site):

"Lifestyle · Experience 01 · Arrival"

AFTER (catalogue-aligned):

"Arrival · A room that holds a conversation without hurrying it."

Source: Catalogue p.26 — originally for the Party Lounge but works here. Alt: 'Three lifts to your door, one of them always waiting.' (p.47)

Mosaic tile 02 — Clubhouse BEFORE (current site): <i>"Lifestyle · Experience 02 · Clubhouse"</i> AFTER (catalogue-aligned): <i>"Clubhouse · One hundred thousand square feet of what the home cannot hold."</i> <i>Source: Catalogue p.36 — verbatim.</i>
Mosaic tile 03 — Outdoor BEFORE (current site): <i>"Lifestyle · Experience 03 · Outdoor"</i> AFTER (catalogue-aligned): <i>"Outdoor · Ten acres. Seventy-six percent open."</i> <i>Source: Catalogue p.37 — verbatim.</i>
Mosaic tile 04 — Indoor BEFORE (current site): <i>"Lifestyle · Experience 04 · Indoor"</i> AFTER (catalogue-aligned): <i>"Indoor · The first sound inside Tribhuja is water. And beyond it, the full life begins."</i> <i>Source: Catalogue p.20 — verbatim.</i>
Mosaic tile 05 — Home BEFORE (current site): <i>"Lifestyle · Experience 05 · Home"</i> AFTER (catalogue-aligned): <i>"Home · A home holds what the world cannot."</i> <i>Source: Catalogue p.52 — verbatim.</i>
Mosaic tile 06 — Terrace BEFORE (current site): <i>"Lifestyle · Experience 06 · Terrace"</i> AFTER (catalogue-aligned): <i>"Terrace · Suspended like the curve of a kept breath."</i> <i>Source: Catalogue p.23 — verbatim (originally for Terrace Pool).</i>

Section · Lifestyle Explorer (Clubhouse floor index)

Eyebrow BEFORE (current site): <i>"The Great Clubhouse"</i> AFTER (catalogue-aligned): <i>"Club Tribhuja"</i> <i>Source: Catalogue pp.20–36.</i>
Headline (BANNED WORDS) BEFORE (current site): <i>"Vertical Life. Sectional Review."</i> AFTER (catalogue-aligned): <i>"One hundred thousand square feet of what the home cannot hold."</i> <i>Source: Catalogue p.36 — verbatim.</i>

Body (BANNED WORDS)

BEFORE (current site):

"1,00,000 SFT of curated experiences across 13 levels. The largest private social destination in the city."

AFTER (catalogue-aligned):

"The largest clubhouse in Kollur. Banquet Hall, Theatre, Party Lounge, Terrace Pool, Dance Room, Crèche, Gym, Yoga, Library, Café, Business Lounge, Guest Rooms, Salon, Spa, Games Room, Indoor Pool, AV Room, Squash, Badminton, Multipurpose Hall."

Source: Catalogue pp.22 (claim) + pp.24–36 (full amenity list).

Implementation: 'curated experiences' / 'private social destination' both corporate-speak. Remove.

Floor label system (REMOVE CORPORATE CODES)

BEFORE (current site):

"Structural Index TR-A1 · C-LAT: 17.447N // C-LON: 78.228E · REF: B-01 // HUD-STATE: ACTIVE"

AFTER (catalogue-aligned):

"Remove entirely. Each floor = just the number + name."

Source: Catalogue doesn't use engineering codes. Keep the interface, drop the sci-fi labelling.

Implementation: Delete all 'Structural Index' / coordinates / 'HUD-STATE' decorative text from the explorer.

Floor 12 label

BEFORE (current site):

"Common Lounge"

AFTER (catalogue-aligned):

"Party Lounge · A room that holds a conversation without hurrying it."

Source: Catalogue p.26 — verbatim caption.

Implementation: Two-line labels: amenity name + catalogue caption.

Floor 05 label — Banquet

BEFORE (current site):

"Banquet Hall"

AFTER (catalogue-aligned):

"Banquet Hall · The evening begins when you do."

Source: Catalogue p.24 — verbatim caption.

Floor 06 label — Theatre

BEFORE (current site):

"Theatre"

AFTER (catalogue-aligned):

"Theatre · A projector at work, and the film already begun."

Source: Catalogue p.25 — verbatim caption.

Other floors — general pattern

BEFORE (current site):

"Gymnasium / Yoga Studio / Badminton / Dance Room / Play Room / Short Party Lounge / Multiuse Room / Saloon / Creche Area / The Great Lobby"

AFTER (catalogue-aligned):

"Keep amenity names exactly as in catalogue pp.28–35. Where the catalogue has no caption for a room, leave the label clean — no invented copy."

Source: Catalogue pp.28–35.

Implementation: Prefer short / no-caption over invented poetic lines.

Section · Tatva Legacy (REMOVE per earlier directive)

DECISION NEEDED: You explicitly said earlier "don't add tatva tantra part." This section is still on the site. Two options:

Option A — Remove entirely. Cleanest. The triadic framing (Tatva / Tantra / Tribhujā) is lost, but the project's poetic voice survives in other sections. Matches your earlier directive.

Option B — Keep but rewrite as 'The Builders'. If Zuari insists on a developer-legacy credit, strip the clichés. Suggested rewrite below.

IF KEPT: Title BEFORE (current site): <i>"Two Legacies. One Shared Vision."</i> AFTER (catalogue-aligned): <i>"The builders, before they built this."</i> <i>Source: Original writing in catalogue register. Catalogue has no verbatim match.</i>
IF KEPT: Body (preserve copy already present — it's strong) BEFORE (current site): <i>"Not what they built. What they were before they built it. Railways that connected provinces. Fertiliser that fed harvests. Financial systems that moved economies..."</i> AFTER (catalogue-aligned): <i>"Not what they built. What they were before they built it. Railways that connected provinces. Fertiliser that fed harvests. Financial systems that moved economies. When K.K. Birla signed, industries followed. One man. Red soil. A handshake. K. Madhuras Reddy built, and Gangotri gave the city addresses before the roads arrived. They opened one more page. Tribhujā is what they create."</i> <i>Source: Original writing — already in catalogue register. Keep as-is, minor polish.</i> Implementation: This body copy is actually strong. Just fix the typo 'industies' → 'industries'.

Section · Location / Connectivity

Eyebrow BEFORE (current site): <i>"THE CONNECTIVITY"</i> AFTER (catalogue-aligned): <i>"The Neighbourhood"</i> <i>Source: Catalogue p.64.</i>
Headline BEFORE (current site): <i>"Strategic Neighbourhood."</i> AFTER (catalogue-aligned): <i>"The neighbourhood was ready before the towers rose."</i> <i>Source: Catalogue p.64 — verbatim.</i>
Transit label (SCI-FI JARGON) BEFORE (current site): <i>"Transit Intelligence // LX"</i> AFTER (catalogue-aligned): <i>"Remove. Just leave the distance list clean, no label."</i> <i>Source: Corporate sci-fi. Doesn't exist in catalogue.</i> Implementation: Delete the label entirely.

Distances — WRONG NUMBERS ON SITE

BEFORE (current site):

"ORR Exit 2: 02 mins · Financial District: 15 mins · Knowledge Hub: 22 mins · Cycling Track: 05 mins · RGIA Airport: 35 mins"

AFTER (catalogue-aligned):

"ORR Exit 2: 2 mins · Financial District: 24 mins · RGIA Airport: 18 mins · Cycling Track: 2 mins"

Source: Catalogue p.64 — exact distances.

Implementation: CRITICAL: current site numbers don't match catalogue. Financial District should be 24 min (not 15). Airport should be 18 min (not 35). 'Knowledge Hub' not in catalogue — remove or confirm source with Zuari.

Cycling Track — needs context line

BEFORE (current site):

"Cycling Track: 05 MINS"

AFTER (catalogue-aligned):

"Cycling Track: 2 mins. 23 km solar-covered track. Kollur to Narsingi, continuing towards TSPA Junction."

Source: Catalogue p.64 — verbatim.

Location pull-quote (add above distance list)

BEFORE (current site):

"(none currently)"

AFTER (catalogue-aligned):

"This is not the edge of Hyderabad. This is its next centre."

Source: NOT IN CATALOGUE — I wrote this. Better catalogue alternative: 'The neighbourhood was ready before the towers rose.' (p.64) — which is already used as the headline.

Implementation: Consider adding the catalogue's ORR Exit 2 line as body: 'Eight lanes. The city's circulatory system at the doorstep.' (p.64, verbatim)

Section · Enquiry (Structural change required)

STRUCTURAL CHANGE — not just copy. Current site has an inline 7-field form (fname, lname, email, phone, config, budget, message) directly on the page. Per your earlier brief, this is outside StreeVia's scope. Simplify to single CTA.

Eyebrow

BEFORE (current site):

"Tribhujā · Enquire"

AFTER (catalogue-aligned):

"Tribhujā"

Source: Minimise decoration.

Headline

BEFORE (current site):

"Request a Private Viewing."

AFTER (catalogue-aligned):

"Some homes are chosen. Others are kept for."

Source: NOT IN CATALOGUE — I wrote this line. Alternative from catalogue p.20 (verbatim): 'The first sound inside Tribhujā is water. And beyond it, the full life begins.'

Body paragraph

BEFORE (current site):

"Leave your details and our team will reach out to schedule an exclusive site visit."

AFTER (catalogue-aligned):

"Private walkthroughs, by appointment."

Source: Original — minimal version in catalogue register.

Implementation: 'exclusive' is a banned word. Short is better here.

Form fields → single CTA

BEFORE (current site):

"[7-field inline form: first name, last name, email, phone, config, budget, message + Submit button]"

AFTER (catalogue-aligned):

"[Single button: REQUEST A VISIT] + [Phone number displayed below]"

Source: Per earlier brief — CRM and lead capture owned by Zuari, not StreeVia.

Implementation: Button links to separate /enquiry page OR opens modal that posts to Zuari's CRM endpoint (endpoint TBD from Zuari). Remove all inline form fields.

Missing sections — to add in Round 3

The following sections exist in the flow but not on the current site. Add in Round 3 using verbatim catalogue lines where possible.

NEW — Master Plan section

BEFORE (current site):

"(missing)"

AFTER (catalogue-aligned):

"9.16 acres. Seventy-six percent open. · An aerial of the site as it will be lived in — nine towers at one hundred and twenty metres, the clubhouse at the heart, the grounds around it."

Source: Catalogue p.17 (stats) + original writing in register for body.

Implementation: Place between Location and The Living Mosaic. Needs isometric 3D render as visual.

NEW — Grounds section (5 zones)

BEFORE (current site):

"(missing — currently only a single 'Outdoor' tile)"

AFTER (catalogue-aligned):

"In the water, the towers disappear. Ten acres. Seventy-six percent open. · Link Parks (arrival plazas and pathways) · Leaside (temple, market, kids' play) · Terra (sports courts and toddler zones) · Aqua (five pools, wet and dry lounges) · Tranquil (gardens, outdoor gym, picnic)."

Source: Catalogue p.38 (headline) + p.37 (stats) + p.57 (zone names). Bracketed descriptors are placeholders pending SK-A sign-off.

Implementation: 5 zones, not 6 — 'Beyond' was my earlier invention, remove. Zone descriptors need landscape-architect (SK-A) confirmation.

NEW — The Home section

BEFORE (current site):

"(missing)"

AFTER (catalogue-aligned):

"A plan drawn around a family, not a floor plate. · The building offers four configurations. A three-bedroom for a young family. A three-bedroom with study for the family that works from home. A four-bedroom for the whole house at once. And one more, at the corner, drawn without compromise."

Source: Catalogue p.55 (headline) + p.56 (body) — both verbatim.

Implementation: No floor plan drawings. Just the four configurations listed, sq ft range 1693–3125, facings East/West.

NEW — Home Interiors section

BEFORE (current site):

"(missing)"

AFTER (catalogue-aligned):

"A room that fills with the first light of the day. · Living rooms open to the light. Kitchens at the heart. Bedrooms with their own wall to the sky."

Source: Catalogue p.54 (headline) + p.55 (body) — both verbatim / near-verbatim.

Implementation: Render gallery, 6-8 interior renders, lazy-loaded WebP.

NEW — Specifications section

BEFORE (current site):

"(missing)"

AFTER (catalogue-aligned):

"The difference is in the ceiling above you, and the air between. · RCC shear-wall frame. UPVC windows, tinted toughened glass. Granite, vitrified tile, teak veneer. Four high-speed lifts. Hundred percent power backup. The full sheet, on request."

Source: Catalogue p.51 (headline) + pp.65–68 (body, compressed).

Implementation: 3-column summary inline, full spec gated behind PDF download.

NEW — The Consultants / Team section

BEFORE (current site):

"(missing)"

AFTER (catalogue-aligned):

"Tatva built the reputation. Tantra confirmed the method. Tribhuja is what you live in. · LAVA · SEP · Strudcom · LEAD · Knight Frank · JLL · SK-A · L'Avenir."

Source: Catalogue p.69 (closing triad + consultant list) — verbatim.

Implementation: 8-tile logo grid. Use the catalogue's own closing line as the intro.

Global fixes — apply across all sections

- **Remove the word 'luxury'** everywhere — currently present in 'luxury norms' (Project Highlights) and '45+ luxuries' (Living Mosaic).
- **Remove 'curated' / 'strategic' / 'private social destination' / 'Transit Intelligence'** — all corporate-speak.
- **Fix typo:** 'industies' → 'industries' in Tatva section.
- **Fix distances:** Financial District 15min → 24min, Airport 35min → 18min.
- **Fix stats:** all 8 stat cells in Project Highlights render '0' — bind to actual values.
- **Remove sci-fi decoration** — 'Structural Index TR-A1', coordinates 'C-LAT: 17.447N', 'HUD-STATE: ACTIVE' etc. These don't match the catalogue's restrained register.
- **Remove inline form** on Enquiry — single CTA only, per brief.
- **Tatva section decision** — keep or remove per earlier directive. If kept, strip 'One Shared Vision' cliché.
- **No exclamation marks anywhere.** Current site appears clean on this. Keep vigilant during copy updates.
- **Numbers paired with meaning** — the catalogue says 'Eight hundred feet of vertical life' not '120m tall'. Where possible in new copy, prefer the meaning-laden phrasing.

Before implementing — confirm these with Shivanshi

- **Tatva section** — remove entirely (per earlier directive) or keep with rewrite?
- **Location distances** — correct catalogue numbers (24 min FD, 18 min airport) or Zuari's own data?
- **'Knowledge Hub: 22 mins'** — where is this from? Not in catalogue.
- **Enquiry** — single CTA handoff to Zuari CRM, not inline form. Confirm approach.
- **SK-A landscape zones** — 5 named zones, descriptors need their approval.

■ Hero verse 'Where' change — confirm brochure gets updated too.

■ Acreage 9.14 vs 9.16 — which is RERA-filed?

All green rewrites can be implemented immediately — either verbatim from the catalogue (most of them) or in catalogue register where the catalogue had no direct match. Where a rewrite is flagged 'NOT IN CATALOGUE' or 'original writing', treat as placeholder — send to Shivanshi for voice approval before locking.
